DETAILED ACTION

Response to Amendment

1. The reply filed December 18, 2006 is acknowledged.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Election/Restrictions

3. Claims 1-22 and 29-31 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on May 31, 2005.

Claim Rejections - 35 USC § 102

4. Claims 23-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Pougnet (1,102,354).

Pougnet discloses a nozzle comprising: a wall **b** defining a water channel; a water deflector **a**; a further deflector (vanes of pipe **b**) associated with the middle aperture and a deflector (vanes of pipe **b**) associated with the lower aperture. See figure below.

Response to Arguments

5. Applicant's arguments filed December 18, 2006 have been fully considered but they are not persuasive.

Applicant argues that claim 23 now recites that the apertures of the water deflector are formed in the wall of the nozzle between the inner and outer surfaces. The apertures shown above in the device Pougnet is between the inner wall surface and the outer surface. The fluid in the inside of vertical pipe **b** must flow through the apertures of deflector **a** and through the deflector **a** to reach the outside surface of vertical pipe **b**.

Therefore, the aperture is between the inner surface of vertical pipe **b** and the outer surface of vertical pipe **b**.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
